

WOODEN DECKS

What is a Wooden-Deck?

A wooden deck is generally constructed with Treated Yellow Pine, Cedar, Redwood, Ironwood, other soft/hard woods.

These woods have open pores that will fill in with dirt/mold etc. Since these pores can absorb harsh chemicals, it is advised to hand wash.

What is included in hand washing of a wooden-deck?

- Removal and replacement of lawn furniture and or plants.
- Covering nearby plants and shrubs from over spray.
- Sweeping off of excess debris.
- Scraping off heavy deposits of mold and mildew.
- Rinse down surface area with clean water.
- Pretreating heavy soiled areas with cleaning agent.
- Apply cleaning agent at proper strength.
- Hand scrub/rotatory surface area.
- Rinse surface area with clean water.
- Re-rinse chemicals and inspect.
